Re: Tony M/Lucky Strike Mine, M/017/001, Reclamation Activity Inspection

Dear Mr. Munson:

On January 29, 2004, Paul Baker with DOGM, Will Stokes with State Lands, Buzz Rakow with BLM, Jim Butt, contractor and myself inspected the reclamation activities completed for the Tony M mine site. All reclamation activities are completed for the Tony M mine site. The final seeding activity will be completed by Wednesday February 4, 2004. On November 19, 2003 the Lucky Strike and Frank M mine sites were inspected as to the completion of site reclamation work. All reclamation work has been completed at all three mine sites. All parties involved with the mine site inspections agreed that no additional mine reclamation work is required at the three mine sites. Plateau Resources Limited (PRL) requests that the reclamation bond for the Tony M, Frank M and Lucky Strike be reduced to a bond amount for only seeding, should the vegetation not grow in the next 3 years.

Should you have any questions please contact me at (307) 856-9271.

Sincerely,  
Plateau Resources Ltd.
